INFOSEC IQ

Content Integrations

Our SCORM files will provide your organization with the flexibility on how and where you train your employees.

- ✔ Company Branded
- ✔ Supports multi-language
- ✔ LMS Compatible (SCORM version 1.2)

At Infosec, we offer security awareness training that **adapts to your organization's requirements.** We are committed to empowering your employees with the knowledge and skills to protect against evolving cyber threats. If your organization wants to train employees from your learning management system, you can **access over 300 security awareness training videos available for download in SCORM format.**
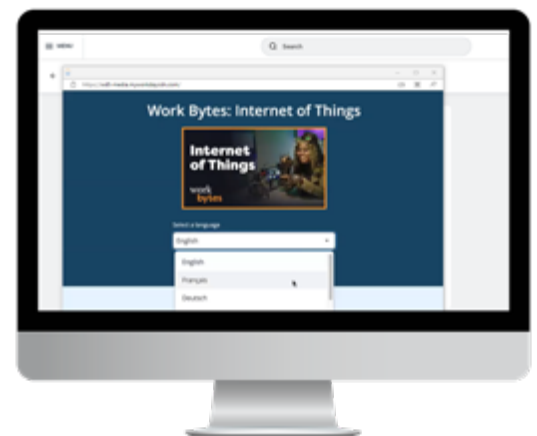

Seamless Integrations

Easily integrate our Global SCORM files with **popular learning management systems, including Blackboard and Workday, as well as other standard platforms.** This integration ensures learners can conveniently access their assigned security awareness training within a familiar platform, streamlining the learning process and maximizing efficiency.

Personalized Training

To enhance the learner's training experience, we have included your company logo with each SCORM file, and the learner can choose their preferred language at the start of their training.

This leads to:

- ✔ Better engagement
- ✔ Enhanced knowledge retention
- ✔ Practical application of skills

90% of customers agree!

Infosec IQ's security awareness training has helped create a culture of security and made their organization **more secure and cyber resilient!**
